

# BUILD HTML PAGES

For this project create three HTML files namely

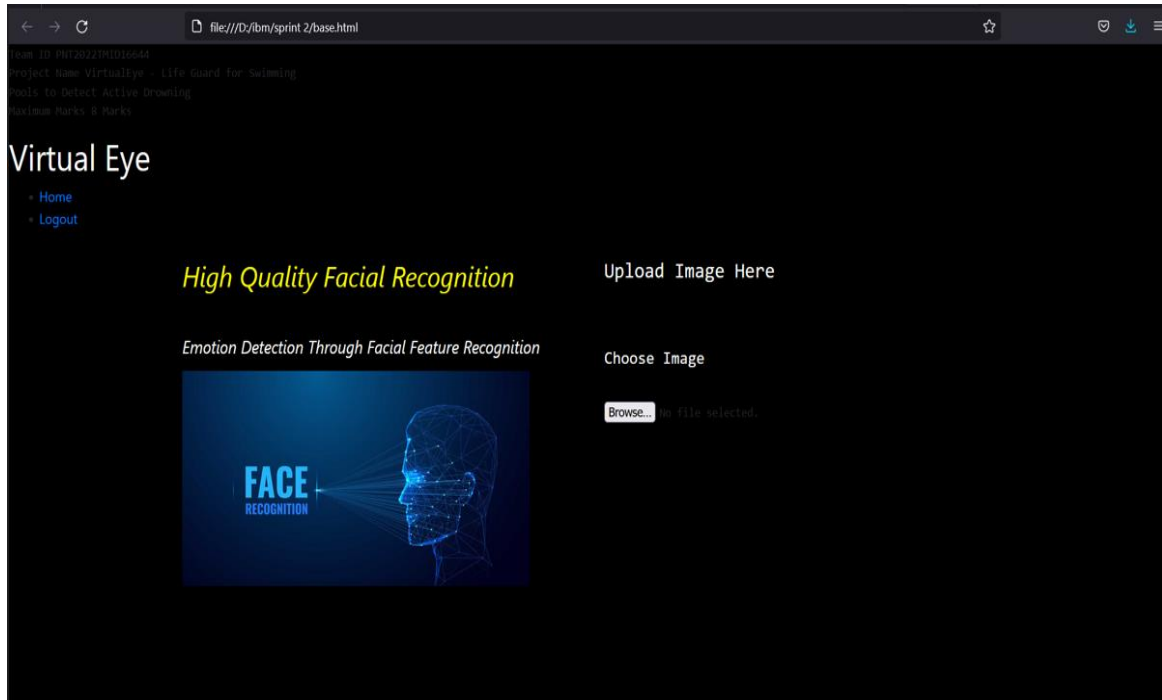

- **index.html**
- **base.html**
- **register.html**
- **login.html**
- **prediction.html**
- **logout.html**

and save them in the templates folder.

Let's see how our index.html page looks like:

Let's look how our base.html file looks like:

Let's look how our register.html file looks like:

The screenshot shows a web browser displaying the 'register.html' file. The address bar shows the file path: file:///D:/bim/Register.html. The page has a header with the 'Virtual Eye' logo and navigation links for 'Home', 'Login', and 'Register'. The main content area is a registration form with the following fields: 'Enter Name', 'Enter EmailID', and 'Enter Password'. Below these fields is a 'Register' button. At the bottom, there is a link for 'Already have an account? Login'.

Let's look how our login.html file looks like:

Now it will redirect to the prediction.html page.

Swimming is one of the best exercises that helps people to reduce stress in this urban lifestyle. Swimming pools are found larger in number in the hotels, weekend tourist spots and barely people have in their house backyard. Beginners, especially often feel it difficult to breathe under water and causes breathing trouble which in turn cause a drowning accident. Worldwide, drowning produces a higher rate of mortality without causing injury to children. Children under six of their age are found to be suffering the highest drowning mortality rates worldwide..Such kinds of deaths account for the third cause of unplanned death globally, with about 1.2 million cases yearly.

Click Me! For a Demo

When logout is clicked it redirects to the logout.html page.
