<u>**PROJECT DESIGN PHASE-1**</u>

Date :	05 October 2022
Team ID :	PNT2022TMID23090
Project Name :	VIRTUALEYE - LIFE GUARD FOR SWIMMING POOLS TO DETECT ACTIVE DROWNING

Solution Architecture

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

1. Find the best tech solution to solve existingbusiness problems.

2. Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.

3. Define features,development phases, and solution requirements.

4. Provide specifications according to which the solutionis defined, managed, and delivered.
